

OCEANBOTICS[®]

SRV-8C

COMPACT UNDERWATER ROV

The SRV-8C is a compact, professional ROV that packs into a single case—easy for one person to carry, deploy, and operate. Designed for fast setup and intuitive control, operators of any experience level can be mission-ready in minutes.

Eight vectored thrusters provide extreme maneuverability, with deployment in under three minutes, a 350 m (1,148 ft) depth rating, and up to four hours of runtime.

The SRV-8C is a powerful, all-in-one solution that fits into a single case.

Easy to Use & Most Maneuverable

Up to 4 Hrs of Battery Life

One Single, Portable Case

Depth Rated to 350 Meters

In-House Tech Support

Intuitive ROV Software (Free periodic updates)

Fully Customizable

Technical Specifications

Width: 37cm (14.5in)

Height: 39cm (15.5in)

Length: 46cm (18in)

Weight: 13kg (29lb)

Weight (w/o battery): 10kg (23lb)

Standard Depth Rating: 350m (1,148ft)

Thrusters: (8) Brushless Direct Current Thrusters

Battery Power

- **Runtime:** Up to 4 hours
- **Power Source:** One (1) hot-swappable battery module
- **Operating Voltage:** 18V

Operating Temperature Range:

- In Air: -10°C to +60°C
- In Water: -2°C to +35°C

Video Resolution: 4k

Camera Tilt Range: 140°

Vehicle Pitch Range: 140°

Total Tilt Range: 280°

Lights: Set of 2 adjustable lights (3,000 lumens)

Navigation:

- Commercial Grade AHRS/IMU
- Precise Heading
- Altitude
- Pitch & Yaw

Sensors:

- Depth
- Temperature
- Turns Counter
- Humidity
- Pressure

External Ports:

- (1) RS-232/RS-485 connections
- (3) Ethernet connections

Copper Tether Options:

- **Diameter:** 4.5mm (< 0.25in)
- **Length:** up to 300m
- **Breaking Strength:** 350kg (770lb)

System Components:

- **Handheld Controller**
- **Ruggedized Laptop**
 - Features a sunlight-readable display
- **Digital Interface Module (DIM)**
 - Enables data transfer and storage between the ROV and the control system
- **SubNav OS Software**
 - Closed-source ROV software that offers intuitive piloting, mission recording, navigation, and easy post-processing with free regular updates.

Popular Accessory Add-Ons:

- Multi-Beam Imaging Sonar
- Doppler Velocity Log (DVL)
- Grabbers & Manipulators
- GPS Positioning System (USBL)
